

# DIVE Deeper™

## CyberCrime - The Hands On Security MasterClass.

---

### Event Objectives:

It's hard to believe that 84% of Cyber attacks come from within. You can have the best firewall in the world, but it won't help you defend against the disgruntled employee or opportunist visitor to your site. As IT and Security professionals you need to be aware of the dangers lurking within your company and stop taking internal security lightly.

The Cybercrime Security team are coming back and this time it's a hands on experience! Join us for a 1day deep dive course and discover more! More on identity theft, more on Google hacking. Come along and get the inside track on the latest security tools and gadgets. Learn about prevention and how it could save your business. In these difficult economic times poor security is something you cannot ignore.

This unique, intense one day hands on course will not only open your eyes but also give you the knowledge and skills you need to identify attacks but also how to protect yourself against them. Includes professional tuition, Lab Manual & Software DVD for each delegate.

<b>Date:</b>	TBC
<b>Cost:</b>	RRP £259+VAT
<b>Duration:</b>	1 Day from 9.30am to 4.00pm
<b>Venue:</b>	TBC

- Conclusions & Q&A Session

## **The Presenter: Andy Malone Microsoft MVP, MCT**

Andy Malone is the CEO of Quality Training Ltd and founder of both the Dive Deeper Technology and Cybercrime Security events. Based in Scotland, Andy is a popular international event speaker and technology evangelist with over 15 years experience. Andy was also the 2006 winner of the Microsoft TechEd Speaker Idol contest. Andy has delivered technical and security content to thousands of delegates worldwide at various technical conferences, such as Microsoft TechEd, IT Pro-Connections and Tech-days. His passionate style of delivery, combined with a sense of fun has become his trademark.

Although his primary focus is for security. Andy loves to talk about the Windows platform, Exchange and Office technologies. And with knowledge dating back to the MS-DOS 2 and Windows 2.0 era there is often an interesting story to be told. But technology never sleeps and Andy continues to work with the Microsoft product teams to create and deliver ground breaking material on Windows 7, Server 2008 R2 and beyond. For 2009/10 Andy is scheduled to deliver content in Europe, the Middle East, Russia and the US to name but a few. Andy's blog: <http://blogs.quality-training.co.uk/blog>
