

# Dive Deeper™

## Windows 7 – The RC MasterClass!

---

### **Seminar Objectives:**

One thing you can be sure of is that Technology never fails to stand still. So it is with great excitement that we bring you an exclusive preview of the future direction of the Windows platform.

This 1 day Windows 7 hands on MasterClass is an ideal chance for IT Pros to gain firsthand experience of the latest operating system from Microsoft. Although based on Windows Vista, Windows 7 introduces an improved user experience as well as some unique features. Our MasterClass will enlighten you with the skills and knowledge to be able to plan, deploy and manage Windows 7. It will also introduce you to some of the improvements including VHD backup & restore, user management, security and maintenance tools.

This exclusive and intensive 1 day event is designed for experienced users of the Windows platform and aims to give a clear understanding on what's new and more importantly what these new features mean to your business.

**Duration:** 1 Day.

**Audience:** Early Adopters, IT Professionals with experience of the Windows Client / Server Platform who are looking to gain insight in to future developments.

### **Event Outline:**

- Introductions
- Introducing Windows 7 Beta
- Installation & Deployment
- Exploring the User Environment
- New Productivity Tools
- Windows 7 Deployment Technologies
- Configuring Hardware & Software
- New Disk & File Management Tools
- Windows 7 Networking & Mobile Computing
- Securing & Protecting Windows Vista
- Windows 7 New Disaster Recovery Features
- Conclusions & Q&A Session

## **The Instructor: Andy Malone Microsoft MVP, MCT**

Andy Malone is the CEO of Quality Training Ltd and founder of both the Dive Deeper Technology and Cybercrime Security events. Based in Scotland, Andy is a popular international event speaker and technology evangelist with over 15 years experience. Andy was also the 2006 winner of the Microsoft TechEd Speaker Idol contest. Andy has delivered technical and security content to thousands of delegates worldwide at various technical conferences, such as Microsoft TechEd, IT Pro-Connections and Tech-days. His passionate style of delivery, combined with a sense of fun has become his trademark.

Although his primary focus is for security. Andy loves to talk about the Windows platform, Exchange and Office technologies. And with knowledge dating back to the MS-DOS 2 and Windows 2.0 era there is often an interesting story to be told. But technology never sleeps and Andy continues to work with the Microsoft product teams to create and deliver ground breaking material on Windows 7, Server 2008 R2 and beyond. For 2009/10 Andy is scheduled to deliver content in Europe, the Middle East, Russia and the US to name but a few. Andy's blog: <http://blogs.quality-training.co.uk/blog>
